1936	2,026,516 - 2,066,308	D098045	PP00162	RE19804	1936

**Notes:**

*	The current patent numbering system began with a patent issued on July 13, 1836. Prior to that date, 9,957 patents had been issued. Defensive Publications (T) and Improvement patents (AI) are not included in this table.
**	Reissue patents were not separately numbered until 1838.
	Some patent numbers, as displayed in the table, are 7 characters with the numeric portion padded with leading zeroes.
	Some numbers within a series may be unused. Therefore, the number of patents granted during a year cannot be determined by simply subtracting the number of the first patent issued in one year from the number of the first patent issued in the next year. The user should note that the data in this table have been checked but that they still may not be completely devoid of errors.
	<a href="#">A detailed Patent Technology Monitoring Division report, titled Issue Dates and Patent Numbers Since 1836, which contains first patent numbers and the day of issue for patents issued since 1963, may also be of interest.</a>
