

AC 1075 Spark Plug for Fords (Model T)

The AC1075 was specifically designed for the Ford Model T. In Spring of 1923 a year long advertising campaign was launched to promote the 1075 for Ford owners not as a better plug for the Model T, but the best plug.

The plug was based on patents 1,216,139 (Feb. 13, 1917) and 1,319,423 (Oct. 21, 1919).
